The Human Development and Family Studies Concentration is a general concentration that is available to HDFS majors who do not choose one of the more specific concentrations. This general concentration is an excellent choice for students who are interested in a lifespan or more general focus in HDFS and are not seeking the specialized training offered in one of the other four concentrations. Students choosing this concentration will be preparing to enter a variety of careers or graduate programs. This concentration will not be listed on transcripts.

**Students must earn a “C” or higher in concentration courses.**
**Courses may NOT double count for courses fulfilling AUCC, other HDFS requirements, or a second concentration.**

### Students must complete a minimum of 15 credits from the course options below for the HDFS General Concentration; with at least 9 credits of HDFS prefix courses and 12 credits of upper division.
